FNAME	LNAME	ABSTRACT TITLE	ID ABS	RS#	RS TITLE	ROOM	DATE/TIME
Jad	Ziolkowska	Desalination Technology in the US: Potentials for Economic Growth and Sustainable Water Supply	59	1	Water Security in a Changing World: Alternative Sources of Water	Cozumel 1	29 May 2017, 15.30-17.00
Yoram	Eckstein	Quo Vadis Aqua Mundi? The Future of Water	247				
Sajjad	Ahmad	Potential of Rainwater Harvesting in meeting the domestic outdoor demand: a study in dry and wet regions of the United States	538				
Biju	George	Water Reuse for Irrigation in Egypt: Farmer's perceptions, knowledge and economics	483				
Jessica	Rodrigues Pires da Silva	Boosting direct potable reuse: measures to be taken to help shorten the knowledge gaps and uncertainties surrounding this technology	555	2	Bridging Science and Policy	Cozumel 3	29 May 2017, 15.30-17.00
Angelica	Gutierrez-Magness	GEO Global Water Sustainability (GEOGLOWS): Earth Observations for sustainability in water management in the Americas and around the world	529				
Bassel	Daher	Understanding the Science-Policy Gap: Proposing a Formal Delegation Principal - Agent Model	291				
Thaís	Moreira de Classe	Water Footprint Assessment: innovation tool in Brazilian water governance	482				
Bryan	Jenkins	Translating Science into Policy: setting nutrient limits for agricultural land use	183	4	Building Capacity	Cozumel 1	30 May 2017, 9.00-10.30
Christina	Fraser	What Hydrogeological Knowledge is Needed to Inform Transboundary Aquifer Policy: A Malawi Case Study	401				
Lindsey	Aldaco-Manner	Water Education Assessment Standards: The Pipeline to Conserving Water in Urban Cities	490				
Rudolph	Rosen	Future water stewardship and fact-based water policy: an aquatic science education pathway model	179				
Alejandro	Salazar	Institutional capacity and performance in water utilities in the North of Mexico	407	5	Water Security in a Changing World: Climate Change	Isla Mujeres	29 May 2017, 17.20-18.50
Pankajkumar	Sampat	Quantification of Municipal Water Supply and Role of Metering in Large Indian Cities	117				
Tom	Arsuffi	Field Stations as Ambassadors and Agents for Bridging Silos: Engagement in Watershed Protection, Research and Natural Resource Literacy in a Land of Private Property	341				
Laura	McCann	Comparison and evolution of water institutions in the U.S. Midwest	590				
Meghan	Klasic	Water Quality and Extreme Events in the Face of Climate Change: Does science supply meet demand?	514	6	Water Security in a Changing World: Climate Change	Cozumel 3	31 May 2017, 15.30-17.00
Inom	Normatov	Modern state of the Transboundary Amudarya main tributaries	93				
Yukako	Tanaka	Estimation of the damage cost on compound water related disaster in Japan using 2D non-uniform flow model	218				
Alfredo	Ribeiro Neto	Adaptation mechanisms for extreme events in the Capibaribe River Basin - Brazil	387				
Saswati	Roy	Truth Behind Noah's Deluge: An Implication of Climate Change Adaptation	500	6	Water Security in a Changing World: Climate Change	Cozumel 3	31 May 2017, 15.30-17.00
Céline	Dubreuil	Mediterranean wetlands: Natural solutions to deal with climate change	321				
Yangwen	Jia	Challenges and Adaptive Strategies of Water Resources Change in the Yellow River Basin under the Changing Environment	425				
Pedro Antonio	Guido-Aldana	Criteria for the selection and design of climate change adaptation measures for Mexico	219				

Regular Session Speakers and Schedule

FNAME	LNAME	ABSTRACT TITLE	ID ABS	RS#	RS TITLE	ROOM	DATE/TIME
Roberto	Ponce	Economic Evaluation of Climatic Change Impacts on Water Resources at River Basin Scale: Insights from the Vergara River Basin, Chile	533	7	Water Security in a Changing World: Climate Change	Cozumel 3	30 May 2017, 9.00-10.30
Layla	Lambiasi	Defining future climate conditions for a river basin in northeast Brazil: combining GCMs predictions, promoting scenario planning and embracing uncertainty	518				
Layla	Lambiasi	Estimation of the economic loss associated with the potential water scarcity due to climate change over a river basin in northeast Brazil: guiding policy making process on a tangible s	523				
Nidia	Tobon	Paleohydrology record of the stromatolites of the Bacalar Lagoon: new insight for climate change assessment in the Mexican Caribbean	216				
Hashim	Alsafi	Assessment of climate change impacts on the variability of future streamflow in a selected contributing catchment of the Australian Hydrologic Reference Stations	121				
Christopher	Rossi	The Transboundary Dispute Over the Waters of the Silal/Siloli (Bolivia v. Chile)	284	8	Water Security in a Changing World: Conflict and Cooperation	Isla Mujeres	29 May 2017, 15.30-17.00
Shawna	Moore	Changing Tides of Egyptian Hydro-Hegemony	180				
Ahmed	Tayia	Transboundary water conflict resolution mechanisms: toward convergence between theory and practice	445				
Lindsay	Sansom	U.S.-Mexico Water Cooperation and Conflict	469				
Yumiko	Yasuda	Stepping out of the "water-box" - Re-thinking transboundary water cooperation	430	9	Water Security in a Changing World: Conflict and Cooperation	Cozumel 3	30 May 2017, 15.30-17.00
Rebecca L	Farnum	Drops of Diplomacy: Questioning the Scalar Possibilities of Hydro-Diplomacy through a Moroccan Fog-Harvesting Project	435				
Nando	Lewis	A new framework for investigating the (in)direct role of water in civil conflict	446				
Dolores	Rey	Historic droughts in the UK: What can we learn to improve agricultural drought management in the future?	133	10	Water Security in a Changing World: Managing Risks	Cozumel 1	29 May 2017, 17.20-18.50
Steven	Nebiker	The Transition to Dynamic Reservoir Operations for Municipal Water Supply	385				
Oscar	Sánchez Montufar	Dam Management in Mexico Cajon de Peñón Dam, Jalisco State	596				
Mustafa Berk	Duygu	Planning of Drought Management by Integrating Science and Policy	250				
Robert	Šakić Trogrlić	Community based- flood risk management: experiences and challenges in Malawi	173				
Daisuke	Nohara	A framework to assess effectiveness and risks of integrated reservoir operation for flood management considering ensemble hydrological prediction	359	11	Water Security in a Changing World: Managing Risks	Cozumel 3	2 June 2017, 9.00-10.30
Blandine	Ouikotan	Gaps and challenges of flood risk management in West African coastal cities	329				
Adriana Maria	Erazo Chica	Hydrological Tools for Flooding Early Warning Systems	525				
Sydney	Weyand	An application of sociohydrology to predict the long-term effects of the Alberta Drainage Project on flood risk in Texas colonias	527				
So	Kazama	Adaptation effect for flood in whole Japan using GCMs with scenarios	259				

Regular Session Speakers and Schedule
